

iPad Apps

This is by no means an exhaustive list, but what is provided is a list of apps being used in Primary and Secondary schools and Early Childhood centres. Most are free apps but we have also purchased some. This list has been compiled by consulting with some academic staff, have either been trialled by our teaching academics or our pre-service teachers or have been found by searching some school's websites.

We envisage updating these iPad apps every semester, so if you wish to suggest additional apps, please email: soc-itsupport@uow.edu.au.
